

ECON ENGINEERING KFT. MANAGEMENT SYSTEM POLICY

Our company's core business

for ISO 9001 system:

Computer-aided engineering, software distribution and support, and automation.

for ISO/IEC 27001 system:

Customer data security in the field of computer-aided engineering, and own business data security.

for EN 9100 system:

Design and simulation of structures and sub-systems for the aerospace industry.

The management of eCon Engineering Kft. strives to ensure, in addition to economical operation, the personal and material conditions at such a level that the quality of the service we provide meets current market demands, and that all employees of our company take full responsibility for the quality of their work.

In the course of our work, we strive to continuously meet the agreed service deadline and meet customer expectations.

In order to maintain and strengthen the trust of our customers and to ensure the long-term operation of our company, the basic task of all our employees is to operate and continuously develop our management system according to the ISO 9001, EN 9100 és ISO/IEC 27001 standards.

It is the duty of all employees of eCon Engineering Kft. to work to the best of their ability to achieve the goals formulated in accordance with the management system policy, to ensure the impeccable quality of the activities performed, in addition to ensuring the maintenance of the information security. In order to achieve all this, eCon Engineering Kft. will increase the satisfaction of its employees through the improvement of workplace circumstances and conditions within a framework of regulated measures.

Our goal is not only to preserve but also to raise the perception and brand of our company in the market, for which we continuously improve our working relationships and communication with our suppliers, customers, subcontractors, professional partners, and colleagues.

In the course of our work, we do our best to meet the expectations of our customers, work and information security requirements, as well as the expectations of society.

Budapest, 08.02.2024.

Gábor Kiglics
CEO
